

We Believe it is time to Better Understand Dementia.

More than **130,000** people in Massachusetts are living with Alzheimer's disease or other forms of dementia.

Understanding Dementia in the Real World

dementia friendly
Communities

In Partnership with Senior Living Residences

This presentation provides an overview of what dementia is and is not, common symptoms that accompany memory loss, and communication techniques for real-world situations. Our training helps to build both empathy and understanding of dementia and gives practical tools for someone to use when communicating with or assisting individuals with memory loss.

We will also discuss how education can be a crucial tool when fighting the stigma of dementia, as it builds stronger understanding of what someone may be going through when experiencing memory loss.

Upcoming Training Sessions

Thursday, August 27 | 4:00 pm - 5:00 pm

Carolyn Sandel, Executive Director
& Lance Chapman, Assistant Executive Director
